Summary

Senior Java Developer with 8+ years of experience in Java/J2EE development, Spring Boot, Microservices, REST APIs, cloud platforms (AWS, Azure, PCF), and containerized environments using Docker and Kubernetes. Skilled in Kafka, GraphQL, MongoDB, and a wide range of modern backend technologies.

Technical Skills

- **Languages:** Java, JavaScript, TypeScript, SQL, PL/SQL
- **Frameworks:** Spring Boot, Spring MVC, Hibernate, JPA
- **Cloud:** AWS, GCP, Azure
- **Databases:** Oracle, MySQL, MongoDB, Cassandra, DynamoDB
- **DevOps:** Jenkins, Docker, Kubernetes, Ansible, Terraform, Git
- **Monitoring:** Splunk, Grafana, CloudWatch, Stackdriver

Professional Experience

Apple, Austin, TX

Apr 2023 – Present

Backend Java Developer

- Worked on Apple EMV Driver for secure POS transactions
- Built Spring Boot microservices and GraphQL APIs
- Deployed APIs on AWS using Docker & Kubernetes
- Used Kafka + Spark Streaming for real-time processing

Schneider, GreenBay, WI

Jul 2021 – Feb 2023

Senior Java Developer

- Built microservices on PCF & Azure, integrated with Kafka
- Managed Docker/Kubernetes deployments and GraphQL APIs

Paypal, Austin, TX

Dec 2020 – Jun 2021

Full Stack Java Developer

- Built and deployed Spring Boot and Node.js microservices
- Used GraphQL, MongoDB, Kafka and Docker in GCP

Apple, Austin, TX

Apr 2020 – Nov 2020

Java Engineer

- Developed cloud-based diagnostics (AST 2) and EasyPay system
- Used AWS CodePipeline & ECS for deployments

Jul 2016 – Mar 2020**Express Scripts, Minneapolis, MN***Java Developer*

- Developed SOAP web services, Spring + Hibernate integrations
- Worked on Cassandra, Oracle, Kafka, and AngularJS
